

Beavers Curriculum Intent

Respect – Honesty – Determination – Cooperation – Equality – Kindness

Beavers will, without excuse or compromise, provide the best start to life for all of the children in its care.

At Beavers Community Primary School, we want Geography to inspire curiosity and fascination about the world and its people that will stay with the children for the rest of their lives. We believe it is important for children to develop their inquisitive thinking and questioning skills to help them interpret what they see. Teaching should equip children with knowledge about diverse places, people, resources and natural and human environments, together with a deep understanding of the Earth's key physical and human process.
