

Beavers Curriculum Intent

Respect – Honesty – Determination – Cooperation – Equality – Kindness

Beavers will, without excuse or compromise, provide the best start to life for all of the children in its care.

At Beavers our vision for Physical Education and Sport is that every child should have the opportunity to partake in physical activity.

We believe in teaching the whole child; their physical, social and emotional well-being where we focus not only on the physical competencies but the thinking and creativity as well as the social emotional and mental health of the children. Through this whole-child approach, Beavers Community Primary School children potentially not only become more physically confident and competent but learn life skills to become strong decision makers, problem solvers, develop character and values and positive behaviour and attitudes towards physical education.

Our objective is to provide the children with at least 2 hours of engaging and active PE lessons every week and to keep the children healthy and active every day with at least 30 minutes of physical activity a day and by reinforcing to them the importance and benefits of a healthy, balanced diet and lifestyle.

At Beavers Community Primary School, we aspire to give as many children as possible the opportunity to compete in a variety of competitions, during school time or by representing the school at community events. We hope that in doing so the children will develop greater confidence, team work, and cooperation and learn to compete with respect, fairness and good sportsmanship.

PE and Sport are a proud part of Beavers and we hope that we can prepare our children for life outside of school.
